Hi Tony,

I do not have any issues with the RTCs to my comments on the RI as long as they are incorporated into the text as indicated in response.

My only comment is for specific comment #11 Response:

Comment: Appendix C4.2 Data Reduction, Page 817: Please add a short description explaining why the CTE was not included

in the HHRA.

Response: Based on the revisions to the HHRA methodology discussed with and agreed to by the BCT (Tetra Tech 2009), estimates of central tendency exposure (CTE) were excluded from the HHRA. Section C2.0 summarizes all revisions to the HHRA methodology. No changes to the text are required in response to this comment.

It would be helpful if the methodology for the exclusion of the CTE in the HHRA was briefly included in the RTC.

Thank you!!
Melinda

Subject: Treasure Island, Site 12 RI Report Responses to Comments

Hi All - Please find attached responses to comments (RTCs) on the Remedial Investigation (RI) Report for Installation Restoration Site 12, Old Bunker Area, Naval Station Treasure Island. So that the RI report can be finalized, please provide your RTC concurrence or any requests for response clarification to me via email by Wednesday, February 1, 2012. If needed, a meeting or call can be scheduled in January to clarify responses.

I hope you all have a great Christmas and Happy New Year!

Regards,

Tony K.
